

Goteborg, January 2017

Letter of reference

We hereby confirm our business relationship with ITinerio (formar known as J. King sp. z o.o.) located in Wrocław ul. Szczytnicka 38, Poland.

ITinerio has supported us with development related to our cloud services for car sharing operations since December 2015. The development has included new micro services created in Java JAX-RS and web clients using the Ember.js javascript framework.

ITinerio's team has proven a valuable extension to our internal development team. They have autonomously handled the development tasks we have outsourced to them, covering design, development and testing, and have timely delivered the agreed content.

We plan to continue our cooperation with ITinerio and can recommend others to start doing the same.

.....

Erik Nordenfelt
CEO Miveo Car-Sharing Technologies AB
